### 3. Longest Substring Without Repeating Characters

Medium  Topics  Companies  Hint

Given a string `s`, find the length of the **longest substring** without repeating characters.

#### Example 1:

**Input:** `s = "abcabcbb"`  
**Output:** 3  
**Explanation:** The answer is "abc", with the length of 3.

#### Example 2:

**Input:** `s = "bbbbbb"`  
**Output:** 1  
**Explanation:** The answer is "b", with the length of 1.

#### Example 3:

**Input:** `s = "pwwkew"`  
**Output:** 3  
**Explanation:** The answer is "wke", with the length of 3.  
Notice that the answer must be a substring, "pwke" is a subsequence and not a substring.

#### Constraints:

- `0 <= s.length <= 5 * 104`
- `s` consists of English letters, digits, symbols and spaces.
